Association/California Homemakers Association (WSWA/CHMA), are located in California. There are also several "service" organizations that were formed to assist the aforementioned primary organizations (they share the same addresses as the primary organizations). The service organizations encompass primarily the legal and medical professions. These organizations are Long Island Equal Justice Association (LIEJA), Coalition of Concerned Medical Professionals (CCMP) (Long Island, New York; Philadelphia, Pennsylvania; Trenton, New Jersey, and numerous locations in California), and Coalition of Concerned Legal Professionals (CCLP) (located in Philadelphia, Pennsylvania; Sacramento, California). Also, Long Island Alternative Press (LIAP) is the printing facilities for these organizations. ~~(S)~~

As previously stated, all of these organizations are intertwined with one another, with the common denominator being the National Labor College (NLC) which is run by the National Labor Federation. The NLC serves as the arena by which all of these organizations (27 total), congregate for national meetings which are held in New York City. Apparently, this college also serves as an indoctrination into these organizations for prospective members and is the first occasion that NLF in a semi-public forum acknowledges that there are other more important aims to be accomplished than the helping of the misfortunate workers of the United States.

As previously stated, the NLC is controlled and operated by the National Labor Federation (NLF), 200 West 20th Street, New York, New York. Originally, information in NYfile 100-182246 on ESWA indicated the association between ESWA and EFWA with the NLF. However, this association was not verified at the time of that original information. The booklets which the NYO obtained from the aforementioned "source", the association between NLF and the previously mentioned organizations becomes clear. NLF and these other organizations are all advertised as Voluntary Mutual Benefits Association, which are organizing the unrecognized workers (domestic workers, farm workers, seasonal workers and

~~SECRET~~

~~SECRET~~

other low paid workers). NYO source also had heard of the NLF in conjunction with the NLC, EFWA and LIEJA.

Whether or not NLF et al is a front for the CPUSA can not definitely be stated, but the teachings of Communism do dominate these organizations and the NLC. There has been conflicting reports from the NYO's CPUSA assets concerning NLF et al. [redacted] have not heard of the aforementioned organizations (all organizations and members' names have not been provided to them), but [redacted] believes she has heard of the NLF, NLC and EFWA, plus certain members in some connection with the CPUSA (complete details are not available at this time).

b2
b7D

The NYO, from a review of information on EFWA contained in the records of the NYO, found a letter written by a [redacted] (protect) [redacted] concerning her contact with EFWA and LIEJA and a meeting of the NLC that she had attended in Brooklyn, New York, on October 1981. The description of how this meeting was organized and run verified the information received earlier from [redacted]. This letter, which in addition to expressing the fears of [redacted] about the NLC et al, spoke of the coming American Revolution which was discussed during the meeting she attended in Brooklyn, New York. This discussion was in very vague terms but the NLC speakers used the Russian Revolution to describe how the coming American Revolution would take place. Based on this letter and the fact [redacted] was obviously concerned about the NLC et al, the NYO interviewed her on 1/12/82.

b2
b6
b7C
b7D

[redacted]
[redacted]
[redacted] initially became involved with EFWA after she had heard several speeches describing the plight of the migrant farm workers on Long Island. She volunteered to help in EFWA's projects and became involved in about August 1980. She helped mostly in the collating of various activities involving the migrant workers,

b6
b7C
b7D~~SECRET~~

~~SECRET~~

b2 and ran errands for staffers of EFWA/LIEJA. She was involved in
b6 these activities for about a year and in approximately October
b7C 1981, she was asked by a [redacted] of LIEJA if she wanted to
b7D attend a national labor college in Brooklyn, New York. [redacted]
agreed and on a Sunday she was driven to a large Catholic church
on Lafayette Street. The church [redacted] was taken to was on
Jerome Avenue between Atlantic and Liberty Avenues, approximately
10 minutes from the church [redacted] was taken to.

Upon arriving at this church, her group was met by uniformed guards wearing fatigues, boots and berets which had red stars embossed upon them. These guards numbered 10 to 15 and were responsible for the security of the meeting, the security of the primary speakers and they were responsible for the orderly running of the meeting (no one who attended this meeting was allowed to leave the building unescorted or even to go to the restroom without a guard being with them). There was a very large, mixed audience in attendance, approximately 300, divided almost evenly between men and women with a few blacks and hispanics interspersed in the crowd. Of this number, there were approximately 40 prospective new members, who were either there for the first time or had attended one other such meeting. These new members were seated separate from the others.

After opening remarks, the audience was divided into smaller groups and teachers would rotate from one group to another (the group's prospective new members were kept together). The topics which these teachers were instructing on were the following:

The History of the Labor Movement in the United States, discussions about government corruption, History and Abuses of the CIA and FBI, Marxist-Leninism doctrines and teachings, especially LENIN's writings, History of the Russian Revolution, discussion on the Cold War between the U.S. and Russia (the U.S. is the responsible party for its beginnings and its continuation, i.e. Marshall plan, TRUMAN doctrine, Salvadorian and Nicaraguan interference by the United States). Additionally, numerous other

~~SECRET~~

~~SECRET~~

topics dealing mostly with the U.S. government's imperialism around the world from 1900's to the present and Watergate were discussed.

Finally, the small groups were disbanded and everyone listened to the main speaker who was enthusiastically received. His name was [redacted] (ph), and is described as a white male, [redacted]

b2
b6
b7C
b7D

[redacted] (this is the same description [redacted] gave of the man in charge of the military aspects of these organizations). [redacted] expanded upon the topics of U.S imperialism, the Cold War, the teachings of LENIN and the need to have the American Revolution to rectify the corruption of capitalism. He also spoke of communism in the U.S and how communism in this country could not be modeled after Chinese, Cuban or Russian communism, but structured to fit this country (a type of American Euro-Communism).

[redacted] when describing how NLF was masking its real purpose of organizing and beginning the American Revolution as well as how NLF was strengthening itself and training its leaders, made the statement "We will allow leftist opposition representation in NLF as a means to hide our true reasons for being", and, "Our cells are under welfare covers so we may strengthen ourselves and train our leaders without interference". [redacted] stated that there was nothing more specific said about what form the American Revolution would take, armed or peaceful. However, when she asked one of the people that brought her to this meeting since they appeared to be advocating armed violence, were they not afraid of the government's reactions. The woman, whose name she could not remember replied, "We're protected by // the aftermath of the reaction to Mc Carthyism".

b6
b7C

The NLC program was finished at approximately 2:30 a.m., almost 12 hours later, and no one was allowed to leave until the group you had arrived with was called and escorted to their cars

~~SECRET~~

~~SECRET~~

by the guards. There were groups from Philadelphia and Pittsburgh, Pennsylvania, Boston, Massachusetts, New Jersey, Ohio, California and New York. Several days after [redacted] attended this meeting, she voiced her uneasiness about NLC and EFWA and expressed the opinion to several of her friends that these organizations were obviously a communist front. These remarks were somehow relayed back to EFWA and the woman who had sponsored her to attend the NLC, [redacted] was visited at her residence by RANCE and a black man by the name of [redacted] (LNU). [redacted] admitted to [redacted] that she was a communist but only her and that there were many political beliefs in EFWA. [redacted] left [redacted] and the black man alone for a short period of time and [redacted] asked [redacted] how he got involved with these groups. [redacted] told her that he had been a member of the Black Panthers and the Weathermen, but after the problems they got into he decided to join this organization (EFWA/NLF), which had the same goals as the Black Panthers and Weathermen but went about achieving them differently. [redacted] stated that he liked the idea of having an organization with established cells along the East and West Coast that were trying to organize the lower classes and providing them with the necessities so they would be able to become militant members of the soon-to-come revolution.

b6
b7C
b7D

[redacted] stated that she thought that [redacted] remark was interesting and that he obviously did not mean that NLF was using the lower class as their recruiting grounds. The people in EFWA who are responsible for its operation are overwhelming middle to upper-middle class, college educated whites, with a large professional membership. Obviously, [redacted] stated, [redacted] statement was meant to mean these lower class people would join the revolution after EFWA/NLF had started it.

b6
b7C
b7D

The NYO is maintaining contact with [redacted] who has had contact with EFWA forced upon her by [redacted] continues to call [redacted] asking to use her telephone to make EFWA business calls. [redacted] wants to rid herself of this problem but will to continue minimal contact with EFWA at the present time.

As previously stated, the NYO has not been able to establish the connection to the CPUSA and as of yet has not seen or heard anything that would convince the NYO that NLF et al is a CPUSA front organization, but the investigation has just been initiated. The only way to definitely establish the link between NLF and the CPUSA, will be through asset reporting. In this vain, the NYO believes that the activation of [redacted] should take place if the connection to CPUSA is to be verified or not.

national CPUSA leaders. It is highly unlikely any organization or group claiming to be affiliated with the CPUSA would not at one time or another refer to national CPUSA leaders.

- (3) From a historical perspective the CPUSA has downplayed the element of violence in its quest for social revolution, although not denying the possibility that social change may well be accompanied by violence. In the 1960's and 1970's; the CPUSA condemned the violent tactics of certain radical groups, claiming that violence at that time was counter revolutionary, invited reaction on the part of the authorities, and would not win the support of the masses.
- (4) The CPUSA was rejected by the "New Left" movement (New Left emerged in the late 1950's and registered a measure of political impact in the 1960's and early 1970's) as too orthodox, conservative, and subservient to the Soviet Union.
- (5) The CPUSA, still among the largest and best organized parties on the left of the American political spectrum, believes that it will be the vanguard of a political mass movement for socialism in the United States. By participating in national elections the CPUSA sees this as a positive step in the long-term struggle to bring socialism to the United States, as opposed to the "violent overthrow of the U. S. Government via military type actions."
- (6) NYO should refer to copy of "Yearbook on International Communist Affairs" (previously furnished to you) and note that of the 21 different communist parties operating in the U. S. there exist the "CPUSA," Gus Hall's group, the "CPUSA (Marxist-Leninist)," a new party formed by former pro-Chinese Marxist-Leninist Organizing Committee, the "Communist Party (Marxist-Leninist)," led by Michael Klonsky, the "Communist Party of the United States of the Order of Lenin," etc. Note that the CPUSA publishes the "Daily World," the CPUSA (Marxist-Leninist) publishes the "UNITE" and the CP (M-L) publishes "The Call."

NYO promptly review this matter and determine whether
the ESWA/NLF is affiliated with the CPUSA or one of the other 21
CP's in the U. S. such as the CPUSA (Marxist-Leninist) or the CP

If you determine that ESWA/NLF is not affiliated with

[redacted] who had been out of contact with the FBI for three years, initially contacted [redacted] case agent in early December, 1981, with information concerning his previous membership in an organization in Philadelphia, called "Eastern Service Workers Association (ESWA)," which in secret meetings professed to be affiliated with the CPUSA. Additionally this group claims to have a four year plan for the violent overthrow of the U. S. Government via military type actions beginning in February, 1982. He stated that the reason he had not come forward sooner with this information was that he thought the FBI already was aware of this group and were investigating it. In view of the recent violent occurrence, i. e., the attempted NYack, NY armored car robbery and the reports connecting this violent occurrence with old left wing radical groups, which had advocated the violent overthrow of the U. S. Government in the past, he thought he should make sure of the FBI was aware of the ESWA. (S) U

He initially came into contact with this organization in late 1978, exact month unrecalled, when he was walking by a three-story brick building, located in Philadelphia, Pennsylvania, and noticed a sign which offered free food and clothing for the needy. He went into this building and received the promised free food along with an informative lecture on the aim of ESWA which is helping the deprived service workers in the east, i.e., domestics, attendant care workers and janitorial workers. He was asked if he would like to help ESWA achieve their goals, which he agreed to do because they were feeding him and they appeared to be interested in his personal welfare. This resulted in his assisting in telephone solicitations for money, clothing and food, as well as street solicitations. (S) U

b2
b7D

[redacted] stated he was involved in this capacity for several months but there was never any mention of Communist Party, USA or Marxist-Leninism. Eventually one member approached [redacted] and asked him if he had noticed that there was something more to ESWA than just the helping of the needy. [redacted] not really knowing what this member was referring to, replied in the affirmative. He was then asked if he would like to become more "involved" in the work of ESWA and

[redacted] again replied in the affirmative. It was after this encounter that [redacted] heard the terms CPUSA, Soviet Union and Marxist-Leninism. (S) U

After agreeing to become more involved with ESWA, he began his indoctrination into the "inner CPUSA group" of ESWA by attending sessions on the doctrines of Marxist-Leninism. During these sessions the inner CPUSA group members would praise the doctrines of Communism, the Soviet Union Government, Russian Revolution, Cuban Communism and Castro, whom they praised often. (S) U

b2
b7D

[redacted] stated that not a minute of time was wasted in these "secret meetings" even to the point that during the transportation to and from these meetings Marxist-Leninism quotations and doctrines were read. Each "secret meeting" was began with a pledge to the effect "This is a secret clandestine meeting of the CPUSA". Everyone in attendance at these meetings were required to sign a piece of paper noting their attendance and their pledge that nothing said in the meeting was to be divulged to other non-inner CPUSA group members. (S) U

b2
b7D

[redacted] attended three meetings of this inner core group in the NYC area. The NY meetings had a national membership flavor as there were members from other areas of the country, in addition to the usual East Coast contingents from Philadelphia, Pennsylvania, Trenton, New Jersey, Atlantic City, New Jersey, NYC and Long Island (He can remember members or potential members from California and the Midwest). It was at the last NY meeting at a private residence, that [redacted] was officially asked to be a member of the "inner CPUSA group." He accepted this invitation to the applause and kudos of the full members. (S) U

New York has determined the National Labor Federation is the national organization of which the ESWA, EFWA and approximately 27 additional organizations are affiliates. (S) U

We concur with New York's opinion that ESWA/NLF is mostly likely not a CPUSA front. (S) U

On 1/28/82 this matter was referred to the Terrorist

THE INFORMATION IN SACRAMENTO AIRTEL WAS IDENTICAL TO THE INITIAL INFORMATION PROVIDED BY [REDACTED] ABOUT ESWA EXCEPT FOR THE CORRECT CP AFFILIATION OF THE NLF. On 2/23 and 2/27/82, [redacted] (Protect Identity at his request) was interviewed at [redacted]. When first contacted, [redacted] acknowledged that he authored a letter to U.S. Senator [redacted] concerning captioned organization. He volunteered to provide information concerning this group on a confidential basis. He expressed deep concern about retaliatory action on the part of more militant Eastern Service Workers Association (ESWA) members who in the past told him that informers and "fascist agents" were not tolerated.

b6
b7C
b7D

[redacted] advised that he was involved with the Atlantic City Chapter of Eastern Service Workers Association (ESWA) between November, 1979 and November, 1980. He attended between 20 and 25 meetings of this organization. At least five of these meetings were held out of town in Philadelphia or New York City. [redacted] stated he initially learned of ESWA when he observed a group soliciting contributions in a shopping mall. He became more involved in ESWA work to "help the poor". However, he gradually was brought into a "inner circle" where he was exposed to discussion of ESWA philosophies and goals. He described this as similar to being rushed for a college fraternity and which one is evaluated and tested for loyalty. Eventually he came to the conclusion that ESWA was a front organization for a Communist organization and was one of several groups under the umbrella of the National Labor Federation (NLF). This inner-circle he described as predominantly white and under 30 years of age. Members of this group are addressed as "comrades" at the meetings where last names are seldom used. After being accepted into this inner-circle, he was told by ESWA leaders that they were pro-communist and committed to acts of violence against law enforcement and capitalism.

From his attendance at a meeting in a church related building either in Philadelphia or Brooklyn, New York. He recalled an individual named [redacted] (phonetic) who appeared to hold a leadership role. He described [redacted] (PH) as a white male, [redacted]

[redacted] made some references to bank robberies and referred to ESWA as "a tactic" with a "armed faction" preparing for a revolution. He lackedened [redacted] rhetoric and demeanor to a neo-Nazi leader. He also recalled [redacted] speaking out against the police and Federal agents as "fascist pigs".

b6
b7C
b7D

He recalled attending a meeting at the New York apartment of a female member identified as [redacted]. He recalls this apartment as being located in [redacted] Manhattan.

During some meetings discussions took place to recruit members of the US Armed forces as well as Federal employees of the Federal Aeronautical Association (FAA) Technical Center located outside of Atlantic City, N.J. An individual represented to be a member of the U.S. Marine Corps Reserve Unit from Philadelphia named possibly [redacted] (Phonetic) was described as a white male, [redacted] stated this individual attended some of these meetings.

b6
b7C
b7D

[redacted] stated that the Communist Party, USA (CPUSA) was frequently referred to at these meetings in critical terms since they were looked upon as being "too soft". It was impression that the ESWA was not connected or associated with the CPUSA.

To his knowledge, the Atlantic City, N.J. Chapter of ESWA was established in October of 1977, and has claimed to have 1400 members. He estimated that of this amount, less then 100 were active. The reason for this group was initially to help the poor who were being displaced by casino construction in Atlantic City. He became acquainted with the following individuals who were in leadership roles at ESWA in Atlantic City:

Also he never witnessed any display of firearms, explosives, or other weapons although there were discussions of weapons caches at some undisclosed locations. He advised that since he had disassociated himself from the ESWA he became morally concerned about the propensity for violence by this groups inner-circle or "cadres". The National Labor Federation

is located at 200 West 25th st., New York City. It is represented as an 'off-shoot' of the Ceaser Chavez organization in California, but I believe that Mr. Chavez does not really have any control, nor extensive knowledge, of this organization.

NATLFED has sent out various branch organizations, among them the North-East Farm Workers Assoc, and the Eastern Service Workers Assoc., and the California Home-Makers Assoc., and a Temporary Workers Assoc., based primarily in New Brunswick, N.J. There is also a North West Seasonal Workers Assoc., located, I believe, in Oregon or Washington state. This last is a small group, while the others may number from 500 to 1,500 in size.

These organizations represent themselves as "organizing the un-organized", and many call themselves Mutual Benefits Groups. They usually offer the trappings of labor unions, education about the history of labor growth in America, and "educational" picket lines about centers of labor un-rest.

The groups use volunteer lawyers to push their contention that they are not a labor union, and they push suits in courts around issues such as working and housing conditions. The groups also recruit doctors to give 'free' medical care to farm-workers and the poor among the membership. Each group offers such benefits to show members that only 'they' care about the poor and under-privileged.

REPORT...NATLFED

These various groups began in 1973, and grew around a nucleus of New York and Eastern city and West Coast radicals and extreme Left-wing figures.

They seized upon the fragmentation of Left wing groups and the danger from armed action and it's consequences--the Weathermen and Veince Y Ramos--to "go underground". They re-surfaced as the National Labor Federation, and, with I estimate less than 500 members, began establishing various "associations", beginning on the West Coast with the Home-Makers, and on the East Coast and rural New York with their Eastern Farm-Workers groups.

Among this central membership were many Veince Y Ramos Brigade members, most wanted for bank robbery and murder, and ex-Weathermen, and members of other fring radical left terrorist groups.

This central group styled themselves 'Cadre', and began dispersing around the country, with money from contributions by sympathizers, and loot from their robberies, and small groups of 3 to 6 members began establishing offices in such locations as SmithTown, BellPort, and other farm-labor areas in Nassau and Suffolk counties, and throughout Long Island.

West, in cities, the California Home-makers sprang up, and later, ca. 1976-77, Eastern cities such as New Brunswick and Boston and Philadelphia became centers, and later, Trenton and Atlantic City--the last three adressing themsleves to 'service workers' and the un-employed.

There is a small 'entity' in Western Massachusetts. Total of these groups is around 12 to 15. Each Entity has about 1,500 maximum in membership.

REPORT ___NATLFED

At present time, obviously, these groups are not 'illegal'...but I believe they may pose a great threat to America in the future. For the terrorists and extremists in their midst have not given up their fixed belief that America is ripe for 'overhtrow' --and they have set up an Armed Faction, carefully hidden and guarded, which, I have been told, possesses over 100 guns and arms and an unknown quantity of explosives.

This group calls itself the Provisional Wing of the Communist Party...and they are dedicated to the overthrow of the U.S. government by 'any means necessary'.

The information I have written here is the basic facts as I have uncovered them, as a member of this organization for over a year. Obviously, I have not penetrated the 'inner core' of NATLFED. I have no desire to do so, out of fear, and I am suspect, from ym frequent criticism of the Soviet Union.

I do not consider myself an 'agent', but rather an American citizen who has uncovered an organization whose hidden depravity and threat to our country should be known to you, and to all Americans.

I do not use my real name in this communication, because I have been told that the penalty for disclosure of the 'inner purpose' of this organization is death. I may communicate with members of the Bureau or the Executive branch in person in the future, if I feel that events warrent it.

Dear Sirs,

9/18/95

SP9AG/amy

I am writing with information that might be of aid to you in your hunt for those responsible for the murder of a state policeman recently.

Now, I do not have any information nor identification that might lead directly to these people, but a more general body of data that might prove useful.

There is in New Jersey a series of organizations called the Eastern Service Workers. They exist in New Brunswick, Trenton, Princeton, and Atlantic City, and in Philadelphia, Pennsylvania.

These groups purport to be "concerned" about the poor and the un-employed, and call themselves a Mutual Benefits association. They do distribute food and clothing on occasions, and conduct organizing drives. They even have lawyers who volunteer to help members, and have aided them in court cases, "to fight injustice", etc.

But the real job of these groups is to recruit for the National Labor Federation, and beyond that, for the real center and identity of these organizations: The Provisional Wing of the Communist Party, aka The Party of Lenin.

This ultra-left splinter party has among its inner membership ex-Weathermen, the Veince Y Ramos Brigade, and other members of Communist terrorist groups. They have weapons and conduct regular training. I believe the arms are stored, in small caches, in the private homes and apartments of central members, who call themselves Cadre, or if officers, Commisars.

I was a member of this group for over a year, but am no longer active and am "politically suspect". I have been warned on several occasions that betrayal of the Party-- means death.

100-486889-9X8
~~100-486889-9X8~~

I've communicated with the CIA and the FBI concerning this group, always anonymously or under a pseudonym.

While I do not believe any members of this group committed these murders, the trooper nor the attempted Brinks robbery, they are definitely committed to aiding and helping any and all terrorist actions which, in their central committees opinion, will "aid the revolution" or help to de-stabilize America. In other words, they will, if they can without risk to their organization, hide, shelter and aid in escape any of these free-lance terrorist groups.

Usually, fugitives would not be permitted near the offices, or "entities", because these are visited by members of the public. But again, the homes and apartments of trusted members would be used for this purpose.

Now, this group is always alert against betrayal, or penetration by agents. But most of them believe their organization--The Party--is secret, and unknown to the general public, or law enforcement agencies.

Someday, if I feel I can do so with safety, I will be communicating by phone with the CIA, and perhaps The Bureau and your office.

Good Night

Dear Sen. [redacted] or secretary,

I would be ~~interested in knowing~~ how
~~the committee secured information, and the procedure for~~
~~inviting witnesses who believed may have information the~~
~~committee might find of interest.~~

There is an organization of which I
was a member for some months, called the Eastern Service
Workers Association. The ~~ESWA~~ is an 'arm' of the ~~National~~
~~Labor Federation~~, head-quartered in Manhattan, NYC.

During several 'national meetings',
I learned that the center or core of ~~NATLFED~~ is something
called the Provisional Wing of the Communist Party. This
group includes converts from other Communist parties, new
recruits, many dating from anti-war activities of the 70s,
and remnants of the Vience Y Ramos Brigade, an armed gang
responsible for many robberies and murders in California.

~~NATLFED~~ claims to have begun their
activities in co-operation with Cesar Chavez, by persua-
ding him that they could 'organize' all the farm workers
in America. This effort began, I was told, in 1973.

Other arms of ~~NATLFED~~ include the
Northern Farm-workers Assoc., the California Home-makers
Assoc., and the North-Eastern and North-Western Seasonal
Workers Assoc. These branches exist in Smithtown N.Y.,
other locations on Long Island, six cities in California,
and Boston, Mass., Princeton and Trenton and Atlantic City,
N.J., and Philadelphia, Pa.

Their stated aims include strenghtening
of an armed faction, equipped with over 100 firearms, and
'recruiting' of members of the Armed Forces--and ultimately,
the violent over-throw of the United States government.

Most of the 200,000+ membership are un-aware that they are part of a Stalinist party, nor that their membership may involve them in the deaths of perhaps hundreds of innocent people. They have been told that the group they belong to is going to "organize the un-roganized", and deliver benefits to the poor, and establish a "permenant solution" to poverty, racism, and in-justice in America.

They have not been told that the strategy for these aims include riots, sabotage of government installations, murder of selected victims to 'create martyrs', and assasination of policemen and elected officials.

The Eastern Service Workers and similar groups represent a threat, because they are a 'secret' party, ready to use public meetings and volunteer lawyers to "protect" them against attempts to disclose their real purposes. "America is soft", one member told me. "We shall us their own laws aginst them" NAFLFO groups deny that they are Communist, and denounce investigation against them as "harrassment", and "Facist efforts to crush the poor". and because of the cleverness of their propaganda, hundreds of respected Americans and clergy and professional people have volunteered to help these groups---unaware of the real aims that are at the center of their 'humanitarian' facade!

I have sent reports to the FBI in Washington and Newark about these groups. I would be able, if needed, to testify before the committee.

~~At this time, I want to remain anonymous.~~ However, I have a friend who marched with me against the war in Vietnam, in civil rights protests, etc. I believe I would trust him to communicate to me a response this committee might wish to make:

Under caption of Communist Workers Party, Philadelphia file 100-56264, has reopened its investigation of the Communist Workers Party (CWP) because of recent information developed by the Philadelphia Police Department and because on 6/25-27/82 the "mini" Democratic convention will be held in Philadelphia.

Because of the reports of the potential for violence by the ESWA, Philadelphia is conducting the limited investigation to determine if additional investigation is warranted.

Newark and New York are requested to provide Philadelphia with information they have previously developed concerning ESWA in a non-classified form so that this information can be included in Philadelphia's Domestic Security investigation and where appropriate, passed to local law enforcement agencies.

Source was recontacted on September 12, 1980 and indicated that he has had no additional contacts with the group and feels that they have withdrawn their interest with him.

Review of the records of the Philadelphia Office of the FBI determine that information had been received indicating that the ESWA is a Communist front which is attempting to organize domestic service workers and other militant laborers into a union-like organization. ESWA had a five year plan for the violent overthrow of the U.S. Government and the ESWA was described as a pure Leninist organization apparently a pro-Chinese organization with a Cuban element.

On November 4, 1981 an office of the FBI received an anonymous letter, a copy of which had been sent to a U.S. Senator. The writer of the letter stated that the ESWA is an arm of the National Labor Federation (NLF) which is headquartered in Manhattan, N.Y.

The writer referred to "NATLFED" being called the "Provisional Wing of the Communist Party." The writer stated that other arms of the NLF include the Northern Farm Workers Association; The California Homemakers Association; the Northeastern and Northwestern Seasonal Workers Association. These organizations were alleged to have branches in six cities in California, Long Island, N.Y., Smithtown, N.Y., Boston, Mass., Princeton, N.J., Trenton, N.J., Atlantic City, N.J. and Philadelphia, Pa.

EASTERN SERVICE WORKERS ASSOCIATION

The unknown writer referred to an "armed faction recruiting members of the Armed Forces for the ultimate overthrow of the U.S. Government." While the writer of this letter is not known, the writer stated that he could receive a communication from the U.S. Senator through [redacted]

On March 23, 1982 an anonymous letter was received by the Philadelphia Office of the FBI and stated as follows:

"Dear Sirs,

"I want to write and tell you of a group that my fiancée and I joined briefly, and later quit. They call themselves ESWA, or Eastern Service Workers Association. But at the center, I found out at 'national' meetings, is nothing less than the Provisional Wing of the Communist Party.

"At these top meetings, we were introduced to people who told us of the necessity to overthrow the United States government by force, and 'organize' members of the armed forces to help them do this. They also told me that they have collected rifles and small-arms, and have a small army!

"This ESWA pays almost no taxes, but they said they collect many millions every year from 'contributors.' I gave them money, too, before I knew they were Communist. They claim also that they have got support from all sorts of charitable and religious organizations, and even volunteer lawyers and doctors, who 'help the poor', and don't realize they are working for The Party.

"If more people knew about this group, they would not help or support them. But lots of people are afraid to tell what they know, because The Party threatens people, as they did us, to keep quiet if we know what's good for them. The Party even holds training sessions in how to manipulate and brain-wash people!

"The ESWA has offices in Philadelphia and Trenton and New Brunswick in New Jersey, even Atlantic City. And they have some Farmworkers associations up in Long Island, N.Y.

EASTERN SERVICE WORKERS ASSOCIATION

"I am afraid of the risk, but I want to tell Americans about these New Communists, because I think they could be a very real danger to our country.

The Newark Office of the FBI located and obtained copies of three anonymous letters mailed to the FBI at Newark, N.J., to New Jersey State Police, Trenton, N.J. and to a U.S. Senator. The three letters were written over a period of four months and displayed specific knowledge of ESWA/NLF.

Investigation conducted by the FBI identified the anonymous letter writer and he was interviewed.

The writer advised as follows:

Writer stated that he was member of captioned organization for approximately one year. He was not part of the paramilitary cadre, however, he had knowledge of this cadre through being told on numerous occasions by other members. Writer stated captioned organization is part of the provisional wing of the Communist Party, the Party of Lenin which is not apparently part of the Communist Party, USA (CPUSA). In general, writer corroborated information previously obtained regarding the revolutionary goals of ESWA/NLF. He further stated he had been told of \$5,000,000.00 in available assets for use in their covert activities, small weapons caches concealed in private residences and an armed cadre which receives military type training. Though he denied direct knowledge of this he had been told of the above specifically by members.

Writer stated a belief that captioned organization may be assisting radical type fugitives through their funds and a national network of "safe houses" of which he has also been told.

A fourth confidential source contacted an office of the FBI and stated he was providing this information because he was very apprehensive of this group. He stated he had been approached at his office by two representatives of ESWA who requested source agree to represent themselves and their members in vague, unnamed legal problems which they expected to occur in the future. He has since been contacted

in person and via telephone at his residence. They requested financial contributions, consent to use his residence in Pennsylvania for periodic secret meetings and that he provide a list of his personal friends who might be in influential positions, i.e. attorneys, politicians, etc., whom they could contact and use. Source believes that he is being accepted as a fringe member of this group. He further indicated his impression that these individuals are radical Communists who might be violent and dangerous.
